The Department of Botany and Plant Sciences and Center for Plant Cell Biology invite applicants for an assistant professor, tenure-track, in Plant Cellular Biochemistry. Applicants should work at the forefront of the field, with emphasis in broad interdisciplinary approaches (such as proteomics, metabolomics, genomics, cell imaging and/or systems biology) to address important plant biological topics at the cellular level, such as, but not limited to, development, metabolism, gene regulation, abiotic or biotic stress, or bioenergy. The successful candidate will establish and maintain a vigorous, innovative research program and teach an undergraduate course in plant biochemistry, cell biology or physiology, and/or contribute to campus-wide undergraduate life sciences teaching. Additionally, the candidate will develop a graduate course in their area of expertise, and supervise graduate students. The position includes a research appointment in the Agricultural Experiment Station. For additional information about the Department and the campus visit http://cnas.ucr.edu/, http://www.plantbiology.ucr.edu/, http://www.cepceb.ucr.edu

Applicants must hold a Ph.D. in biological sciences or related fields with postdoctoral experience. Evaluation of applications will begin February 4, 2013 and continue until the position is filled. The position will be available July 1, 2013. Interested individuals should submit 1) a curriculum vitae, 2) a statement of research and teaching interests, and 3) have three letters of recommendation submitted through https://academicjobsonline.org/ajo/jobs/2402. For additional information, please contact Dr. Zhenbiao Yang (yang@ucr.edu).
